CAREER OBJECTIVE

Passionate and growth-oriented individual with a strong foundation in programming and a deep interest in the Salesforce ecosystem. Highly motivated to build impactful and scalable business applications using Apex, Lightning Web Components (LWC), Flows, and other Salesforce tools.

My goal is to grow both technically and professionally as a Salesforce Developer while making meaningful contributions within dynamic development teams.

TECHNICAL EXPERTISE

- **CRM & Cloud Platforms:** Salesforce, Apex, Trigger, Flow, LWC, Objects etc.
- **Programming Languages:** C, C++, Java, JavaScript
- **Frameworks & Libraries:** JavaFX, Bootstrap
- **Web Development:** HTML, CSS, JavaScript (with responsive design using Bootstrap)
- **Database Management:** SQL, SOQL
- **Data Structures & Algorithms:** DSA using C++
- **Tools & Platforms:** IntelliJ IDEA, VS Code, Lightning Studio

EDUCATION

- **Bachelor of Computer Applications (BCA)**
MDS University, Ajmer | 2023–Present
CGPA: 7.5 (5th Semester)
Relevant Courses: Data Structures, Java Programming, Database Management Systems, Salesforce
- **Senior Secondary (12th)**
Global Academy, RBSE | 2022
Arts Stream | 80%

EXPERIENCE

- **Appistocki Pvt. Ltd. (Salesforce Developer)** **September 2025 – April 2026**
 - Worked as a Salesforce Developer, involved in customization and development on the Salesforce platform.
 - Developed and maintained Apex classes, triggers, and Lightning components.
 - Worked with objects, fields, validation rules, flows, and automation to support business requirements.
 - Collaborated with team members to enhance CRM functionality and improve user experience.
 - Gained hands-on experience with real-time Salesforce development and deployment processes.
- **RK Clouds (Salesforce Developer Intern)** **May 2025 – August 2025**
 - Completed a Salesforce development internship with practical exposure to CRM solutions.
 - Assisted in developing Apex classes, triggers, and basic Lightning Web Components.
 - Worked on Salesforce configuration including objects, fields, workflows, and reports.
 - Learned Salesforce best practices, debugging techniques, and deployment basics.
 - Collaborated with mentors to understand real-world Salesforce project workflows.

PROJECTS

- **FlexZone – Gym Portfolio Website**

(2nd Semester)

Technologies Used: HTML, CSS, JavaScript, Bootstrap, Node JS and SQL

Developed a responsive website for a gym, highlighting membership plans, trainers, and facilities.

Focused on creating a visually engaging and user-friendly design.

- **Accounts Management System**

(3rd Semester)

Technologies Used: Java, JavaFX, Spring Boot and Postgre SQL

Collaborated with a team member to develop a desktop-based system for managing financial records.

Gained experience in team collaboration, dividing responsibilities, and integrating individual components.

- **Salesforce LWC Projects**

(4th Semester)

Leave Tracker App (LWC)

Loan Management App (LWC)

Quiz App (LWC)

KEY STRENGTHS

- Problem-Solving
- Team Collaboration
- Leadership
